PROFILE

As an enthusiastic computer science student deeply passionate about technology, I am driven to secure a dynamic career opportunity where I can apply my expertise and training to make a significant impact within the company. Currently pursuing a BSc in Computer Science and Information Technology, I possess adept frontend development skills in HTML, CSS, JavaScript, and ReactJs along with video editing and graphic design skills.

EXPERIENCE

Video editor

2023

NVN Creates, Lalitpur

As a Video editor at NVN Creates, my primary responsibility was to make short videos and edit podcast for client.

Freelance Graphic Designer

At the beginning of my career, I did freelance graphic design for startups like 2pangre and Suruppa.

PROJECTS

Job recommendation system

<https://github.com/rcube777/job-recommendation>

- Created a job recommendation system using TF-IDF algorithm and cosine similarity.

Amazon UI clone

<https://github.com/rcube777/Amazon-UI-clone>

- Created a clone of amazon's UI using HTML and CSS.
